Invitation to the lifenetmeeting to Goričko Raab Órség tri-border nature park SL - U - Ö *Meeting with cross-border perspectives*

from the 5th to the 7th of October 2018

A step on the way to Europe needs an attentive moment of looking also at the former border of the Iron Curtain, and then bravely stepping into the new direction. Developing cross-border perspectives is the impulse for this weekend together. With people who feel connected to the web of life and bring in diverse European perspectives, we want to discover the landscapes around the place of the tri-border region and to trace and renew our interconnectedness precisely in these places.
